## PERSONAL INFORMATION

I am a student of Computer Science at Bahria university of Pakistan Navy Lahore campus. My passion for programming and other technologies drives me here to excel my capabilities at a bright university majorly known by its excellence and grooming of student.

---

## OBJECTIVE

I am a motivated computer science student aiming to secure a software development internship where I can apply my skills in MERN to contribute to innovative projects and enhance user experience.  
I want to have an internship in summer break to enhance my experience and gain real-time firsthand experience.

## Participation:

- 1- I have Participated in the Bahria University of Pakistan Navy as a coding spree 2.0. in CPP
- 2- I have worked as an event management of BULC
- 3- My university work and certifications are provided on demand

---

## PROFESSIONAL EXPERIENCE

### Web Development:

Designed and implemented responsive websites, ensuring from PNY certified as Web Developer Associational performance across devices and browsers.  
Projects:

- 1- **BURGER BUILDER:** Build a burger-builder Web app with auth which is based on HTML 5, CSS 3, JavaScript, Local Storage for password and state management.

LINK: [Click To see](#)
